AMENDMENT

Sir:

In response to the Office Action dated September 11, 2002, please amend the application as indicated below.

IN THE CLAIMS:

Please amend claims 1 and 2 as indicated below:

1. [Twice Amended] A functional roll film comprising:
- a transparent plastic film having gas barrier properties, and having an inorganic oxide layer on at least one surface, wherein the plastic film is formed into a roll, and further wherein said inorganic oxide layer is formed by controlling an evaporation amount related to an evaporation condition, while continuously monitoring the film thickness of said inorganic oxide layer; and
- wherein the ratio of the maximum film thickness to the minimum film thickness of said inorganic oxide layer formed on said plastic film along both a transverse direction and a longitudinal direction is 1.5 or less.
